Parts

The following pages are intended as a guide for identifying parts you may need to replace. Please note that the breakdown of a product does not specify the complete product (manikin, defibrillator, airway device, suction unit), but shows available spare parts and accessories.

If you need further information regarding the parts for your Laerdal products, please contact us. Trained personnel are available to answer your questions and provide additional technical data.

Spare parts for defibrillators (HeartStart) are not available for sale in the US through Laerdal Medical.

All parts listed for a specific product might not be available in all markets

Product specifications are subject to change without notice. Actual colours on the parts might differ from the colours in this catalogue.

Resusci Anne Modular System

The Resusci Anne Modular System allows you to tailor make your manikin to meet the diversity of training needs, from the simplest CPR Torso to the full body / full featured CPR-D and First Aid versions.

Each Torso model can be equipped with various types of arms and legs.

Simple arm and leg attachments allow you to build the manikin of your choice within seconds. No tools are required.
